

Business Matching at Advanced Therapy Showcase in Tokyo #3

The Partnering Event in Tokyo Calls for Live-Streaming Presenters

Summary

Life Science Innovation Network Japan (LINK-J) launched the partnering event series "Advanced Therapy Showcase in Tokyo (ATST)" in January 2021. Following the two successful events, now we are pleased to announce that the third edition of the series, the ATST#3, is slated for Wednesday, February 1, 2023. Its format will be the same as its precedents, a virtual event featuring live-streaming company presentations and pre-arranged one-on-one business partnering meetings. The one-on-one meeting will be open on the five weekdays of the week. More emphasis this time shall be on promoting the one-on-one meetings with more active mediation by our staff. Any entities or individuals engaged in the field of advanced therapy including but not limited to cell & gene therapy, regenerative medicine, nucleic acid medicine, etc. are encouraged to participate in this event to find suitable and relevant partner candidates for their business endeavors.

Event Outline

Date	Presentation: Wednesday, February 1, 2023, JST One-on-One Business Meetings: Monday, January 30 ~ Friday, February 3, 2023, JST
Format	Virtual
Program	Under construction
Official Language	English
Contact	atst@link-j.org
