

UK Life Science Symposium in Nihonbashi : Aging, Gene Editing & AI

Sponsorship : MedCity, Northern Health Alliance

Cosponsorship : Life Science Innovation Network Japan (LINK-J)

DESCRIPTION

In advance of BioJapan, join MedCity and the Northern Health Science Alliance at a UK Life Sciences Symposium in Tokyo, which we are honoured to co-host with LINK-J.

Leading UK health scientists, universities and national research institutions will provide insight into the UK life sciences sector, and their work in ageing, gene editing, artificial intelligence. Guests will be welcomed by LINK-J and the Japan Bioindustry Association.

PROGRAM

(All English)

- 12:00-12:25 **Welcome and Introductions**
- Aki Soyama – CEO, Link-J
 - Setsuo Morishita – Director, Japan Bioindustries Association
 - MedCity
 - Northern Health Science Alliance
- 12:25-13:15 **Genotype to Phenotype: Interpretation, Translation and Innovation**
- Professor Joanne Hackett, *Chief Commercial Officer, Genomics England*
 - Dr Rebecca Wilson, *Head of Corporate Partnerships, Faculty of Natural Sciences, Imperial College London*
 - Dr Jia Li, *Senior Lecturer, Faculty of Medicine, Department of Surgery & Cancer, Imperial College London*
 - Fiona Pereira PhD, *Head of Business Development and Strategy, National Phenome Centre, Imperial College London*
- 13:15-13:20 **Company infoshot**
- 13:30-14:00 **Artificial Intelligence and Healthcare: What the future holds**
- Dr Namshik Han, *Head of Computational Biology, Milner Therapeutics Institute, University of Cambridge*
- 14:05-14:10 **Company infoshot**
- 14:15-14:45 **Innovations in Neurological Medicine**
- Prof Mimoun Azouz, *Chair of Translational Neuroscience, University of Sheffield*
- 14:50-14:55 **Company Infoshot**
- 15:00-15:35 **Dementia Research Institute and University College London**
- Lorna Ravenhill Ph.D, *Senior Business & Innovation Manager, University College London*
 - Narges Amini, *Senior Business & Innovation Manager, University College London*

2018 10.9 Tue 12:00 AM - 4:00 PM

Nihonbashi Life Science Building 201 Conference Room

This is a co-event of "1st Well Aging Society Summit Asia-Japan" sponsored by The Ministry of Economy, Trade and Industry.

Join "GLOBAL LIFE SCIENCE CLUSTER SESSION" which will be held at the same room after this event, starts at 4:00 PM, sponsored by LINK-J.

Please register by accessing : <https://www.link-j.org/event/post-1084.html>

MedCity exists to promote and grow life sciences investment, entrepreneurship and industry in the Greater South East of England.

MedCity acts as a front door for industry, researchers and investors looking for partners, infrastructure and expertise. From drug discovery to devices, diagnostics and digital health, MedCity supports life sciences and healthcare companies, large and small, to do business in the region.

MedCity raises awareness globally of the region's rich life sciences cluster, which has more than 3,400 life sciences companies, four of the world's top ten universities, 19 of the top 20 global pharmaceutical companies and world class research centres including The Francis Crick Institute, Harwell Oxford, and The Sanger Institute.

The Northern Health Science Alliance has delegated authority across the North's leading universities, research-intensive NHS trusts and four Academic Health Science Networks, with Board-level approval to enter into collaborative research partnerships.

8 Major Cities : Dedicated industry support for engagement with the Northern health science ecosystem. Rapid processes and tools for engagement from technology scouting to industry led grant applications.

8 Top Universities : An active and responsive network of academics, clinicians and support bodies. Streamlined connections to research centres across the region.

8 NHS Teaching Trusts : Uniquely placed to help set up and coordinate multi-centre clinical studies alongside industrial partners across the North.

4 Academic Health Science Networks : Advice on establishing technology and clinical development programmes. Open to collaborative research models, including shared risk and reward.
