

Kyoto University Life Science Showcase

February 28, 2020

Roth Auditorium at Sanford Consortium for Regenerative Medicine
2880 Torrey Pines Scenic Drive, La Jolla CA 92037

A showcase event introducing KYOTO startups

This event will showcase novel technologies and seeds in the life science fields including pharmaceuticals, regenerative medicine, medical devices, and diagnostics stemming from Kyoto University, one of Japan's premier research universities. This event aims to provide Japanese startup companies an opportunity to network with US investors, so that the Japanese startups can successfully expand their businesses to US and global markets.

Schedule:

| | |
|----------|--|
| 9:00 am | Registration |
| 10:00 am | Showcase presentations, and discussions (4 companies) |
| 12:00 pm | Lunch |
| 1:00 pm | Showcase presentations, and discussions (4 companies) |
| 3:00 pm | Reception (Networking) |
| 5:00 pm | Adjourn |

Event title

Kyoto University Life Science Showcase @ UCSD 2020

Statement of Work

This event aims to provide Japanese startup companies an opportunity to network with US investors so that these startups can successfully expand their businesses to US and global markets. The showcase will be held to introduce novel technologies and seeds in the life science fields including pharmaceuticals, regenerative medicine, medical devices and diagnostics that originated from Kyoto University, one of Japan’s premier research universities. For US investors, VC or technology scouts from pharmaceutical companies, this will be an excellent opportunity to discover promising startups.

Date and program

Feb 28, 2020 (Fri):

| | |
|----------|---|
| 9:00 am | Registration |
| 10:00 am | Showcase presentations, and discussions (4 companies) |
| 12:00 pm | Lunch |
| 1:00 pm | Showcase presentations, and discussions (4 companies) |
| 3:00 pm | Reception (Networking) |
| 5:00 pm | Adjourn |

Venue

- Roth Auditorium, Sanford Consortium for Regenerative Medicine
2880 Torrey Pines Scenic Drive, La Jolla, CA 92037

Target categories of technologies

- Pharmaceuticals
- Medical devices
- Regenerative medicine therapeutics
- In vitro diagnostics
