

HEALTHCARE x DIGITAL

A PROGRAM OF THE AMERICAN CHAMBER OF COMMERCE IN JAPAN

Call for Participation:

Tech Companies with innovative Digital Healthcare ideas

Pitch Contest

Pitch your ideas on a format to be specified. Companies selected will be invited to the Pitch Event on October 29.

Final Pitch Contest

Pitch companies selected as finalists will have the opportunity to receive a monetary prize and meet with the Executive of the Organizing Sponsor companies on December 1.

IDEAS WANTED

The ACCJ Healthcare Committee and Information, Communication and Technology Committee invite you to join us at "Healthcare x Digital" to solve Japan's most critical community healthcare and individual patient needs through digital technology.

At this Pitch event, you will be able to hear presentations on the most innovative healthcare solutions and have the opportunity to develop partnerships to make them a reality.

To solve these growing community and individual patient healthcare challenges, we believe that the private and public sector should join forces to find innovative digital solutions to challenging healthcare problems. We seek to foster partnerships that lead to the creation of eco-systems by bringing together private innovators, healthcare companies, digital companies and government.
