

SLDDDRS WEBINAR SERIES 2021-2023

Advanced BioScience Webinar for Drug, Device Development
NeuroScience Webinar
Keio University

Mar 25, 2022

5:00PM PST

Mar 26, 2022

9:00AM JST

8th Keio-Stanford Webinar: Current Topics in Neuroscience

Structure and function of teneurins in synapse formation

Thomas C. Südhof, MD, PhD
Avram Goldstein Professor Investigator, Howard Hughes Medical Institute;
Professor, Dept. of Molecular & Cellular Physiology and of Neurosurgery;
Professor (by courtesy), Dept. of Neurology & Neurological Sciences and of Psychiatry & Behavioral Science

iPSCs-based Cell therapy for Spinal Cord Injury

Hideyuki Okano, MD, PhD
Professor & Chair, Physiology, Keio University School of Medicine, Japan;
Head of International Advisory Board, SLDDDRS Stanford

Sleep stage extraction using only heart rate for Burden-free measurement

Yasue Mitsukura, PhD
Professor, Faculty of Science and Technology, Department of System Design Engineering, Keio University, Japan;
Deputy Director, Keio University Global Research Institute (KGRI)

Pathological roles of aquaporin-4 in neurodegenerative diseases

Masato Yasui, MD, PhD
Professor, Department of Pharmacology, Keio University School of Medicine, Japan;
Director, Keio University Global Research Institute (KGRI)

Moderator

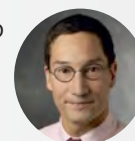

Hideyuki Okano, MD, PhD
Professor & Chair, Physiology,
Keio University School of Medicine
Head of International Advisory Board,
SLDDDRS Stanford

Toshihiko Nishimura, MD, PhD
Co-Director, SLDDDRS Stanford

Ronald G. Pearl, MD, PhD
Chairman, Anesthesiology
Chairman, SLDDDRS Stanford

Peter N. Kao, MD, PhD
Professor
Pulmonary and Critical Care Medicine
Stanford

Register in advance for this webinar:
