

LINK-BIOBAY TOKYO

LINK-BioBAY TOKYO is ...

A collaborative initiative of LINK-J, BioLabs and Mitsui Fudosan aiming to

- Nurture life science startups that can scale at a global level
- Establish an innovation ecosystem connected to the global markets

Cluster globalization

- Linking to the global ecosystem

Cluster expansion

- Attracting new cluster constituent companies
- Co-organizing events with other clusters

Start-up support

- Providing mentoring and incubation program
- Providing opportunities for start-ups to have collisions
- Providing lab space, lab equipment, facilities, and business support programs

Information distribution and branding

- Sharing information domestically and internationally, using the LINK-J platform, and social media, such as LinkedIn
- Sharing opportunities for exposure at both domestic and international events

Come Join Us at TOKYO Biotech DAY !

Join us for Tokyo Biotech Day, featuring a pitch contest by life science startups selected for the Biolabs Masterclass Program.

Awards will be presented based on both judges' evaluations and audience votes.

We'll also host sessions on the life science ecosystem and startup support - great for discovering new trends and collaboration opportunities. We warmly welcome all those interested in life science startups and startup support systems.
