Simultaneous Interpretation

Facing Microorganisms that Cause Cancer —Opening New Horizons

The 19th JIHS Global Infectious Diseases Forum will highlight insights on how bacteria and viruses contribute to cancer development.

Leading experts from Indonesia, Japan, and Taiwan will share on the latest findings and therapeutic approaches for oncogenic infectious diseases.

By addressing the medical environment and challenges in Southeast Asia and Asia in general, JIHS intends to raise interest in developing new preventive measures, diagnostics, and therapeutics, including the conduct of global clinical trials.

We look forward to your participation.
