ABOUT THE SPEAKERS

Brian Han, MD · *Clinical Strategy and Implementation*

Double board-certified Pediatric Cardiologist and Critical Care physician and full-time faculty at Stanford University. Cardiovascular Innovation and Digital Health Lead for Impact1, a maternal and pediatric-focused incubator within the Stanford Mussallem Center for Biodesign, where he guides digital health projects and portfolio companies.

During his Stanford Biodesign Faculty Fellowship, Brian led development of a digital platform integrating physiological data from EHR systems with consumer home devices for remote patient monitoring. He serves as clinical advisor for multiple early-stage startups and accelerators focused on digital health, health informatics, and healthcare AI.

B.A./M.D. from Northwestern University; residency and dual fellowships in Pediatric Cardiology and Critical Care at Stanford University.

New Latthivongskorn, MD · *Health Equity*

Board-certified Family Medicine physician, health equity advocate, and systems thinker dedicated to transforming healthcare.

Has provided care across diverse settings—including community health centers, public county hospitals, private practice, academic institutions, and telemedicine—giving him a comprehensive perspective on the challenges and opportunities within the healthcare system.

Co-founder of Pre-Health Dreamers, a nonprofit supporting undocumented students pursuing health careers. Recognized by Forbes 30 Under 30, the UCSF Gold-Headed Cane Society, and the Vilcek-Gold Award for Humanism in Healthcare.

MD from UCSF's Program in Medical Education for the Urban Underserved (PRIME-US); Master of Public Health in Policy from Harvard University; alumnus of UC Berkeley.
